**YOSEMITE NATIONAL PARK  
ANNUAL REPORT  
FOR UNDERTAKINGS REVIEWED FOR  
SECTION 106 OF THE  
NATIONAL HISTORIC PRESERVATION ACT  
2006**

**Introduction**

This annual report documents the park's efforts to consider and protect cultural resources in accordance with the Section 106 of National Historic Preservation Act, pursuant to Stipulation XVIII of the 1999 *Programmatic Agreement Among The National Park Service (NPS) At Yosemite, The California State Historic Preservation Officer (CA SHPO), And The Advisory Council On Historic Preservation (AChP) Regarding Planning, Design, Construction, Operations And Maintenance, Yosemite National Park, California* (1999 PA) and the *Programmatic Agreement Among the National Park Service (U.S. Dept. of the Interior), the Advisory council on Historic Preservation, and the National Conference of State Historic Preservation Officers*, executed in 1995 (1995 PA).

**Cultural Resource Planning and Compliance Program**

Yosemite National Park coordinates planning, construction, operations and maintenance project review in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended (NHPA), and the National Environmental Policy Act (NEPA) review process, as provided for in Stipulation VI of both the 1995 and 1999 PA's, and 36 CFR Part 800.8 of the Section 106 implementing regulations. The report is organized according to NEPA documentation (Categorical Exclusion, Environmental Assessment, Environmental Impact Statement and Memorandum to the file) that accompanies the parks Preservation Assessment Form (XXX) records that guide and document project review in accordance with the 1995 and 1999 PA's:

Yosemite National Park is fully integrated into the National Park Service Planning Environment Public Comment (PEPC) program. In addition, NEPA documents and appropriate NHPA attachments (with confidential information withheld) are posted on our website at regular intervals.

Yosemite Archaeology Office has a Trails Program, Fire Management Program, and a Wilderness Restoration Program to protect archeological properties in accordance with Section 106, pursuant to the 1999 PA. A Management Summary of the *Archaeological Inventory of the 2006 Backcountry Trails Project, Yosemite National Park* and the *Archeological Survey for the 2006 Wilderness Restoration Program* are included as part of this annual report to provide an outline of efforts in this regard. Complete final reports will be sent to the CA SHPO.

The Yosemite cultural resource professional staff has grown this year. These professionals review proposed undertakings in consideration of their effect on historic properties to ensure resource protection. The park staff includes:

Mr. Rod Kennec, Historic Preservation Specialist  
Mr. Dave Humphrey, Chief, Branch of History, Architecture and Landscape  
Ms. Sueann Brown, Historic Architect  
Mr. Daniel Schaible, Historic Cultural Landscape Architect  
Ms. Marti Gerdes, Historic Cultural Landscape Architect  
Mr. Charles Palmer, Historian  
Ms. Laura Kirn, Chief, Branch of Anthropology and Archeology  
Ms. Suzanna Montague, Supervisory Archaeologist  
Mr. Scott R. Jackson, Archaeologist (Trails Program)  
Mr. Jun Kinoshita, Archaeologist (Fire Program)  
Ms. Barbara Beroza, Curator of Collections  
Mr. Jonathan Bayless, Park Curator  
Mr. Paul Rogers, Archivist  
Ms. Jeannette Simons, Historic Preservation Officer/Native American Liaison  
(Anthropologist/Archaeologist)

In addition, the Pacific West Regional Office's in Seattle, Washington, and Oakland, California, provide professional support that includes:

Ms. Cathy Gilbert, Historic Landscape Architect  
Mr. Kimball Kock, Historic Landscape Architect  
Mr. David Louter, Historian  
Ms. Laurin Huffman, Archeologist  
Ms. Kirstin Haertel, Archeologist  
Dr. Fred York, Anthropologist.

The CA SHPO annual 2-day visit to Yosemite this year was unavoidably postponed until Spring of 2007.

The Yosemite Valley Historic District was listed in the National Register of Historic Places on 12/14/06. The nomination for the Wawona Covered Bridge has been submitted to the Keeper. The Multiple Properties Documentation Form for the Historic Resources of Yosemite National Park and the nomination of 20 properties is still under review by the National Register of Historic Places staff.

## **Status of Active Memoranda of Agreement**

Yosemite has two active memoranda of agreement:

1. Memorandum Of Agreement among the National Park Service, California State Historic Preservation Officer, and Advisory Council on Historic Preservation regarding the demolition, relocation, and rehabilitation of all components of the Merced River hydroelectric generating system, executed in 1986 (1986 MOA).

2. Memorandum of Agreement Between the National Park Service, Yosemite National Park and the California State Historic Preservation Officer Regarding the Lower Yosemite Falls Project, executed in 2002 (2002 MOA).

The park has fulfilled most its obligations under the 1986 MOA. The remaining obligation is submittal of the revised National Register form to the CA SHPO, the ACHP, and the Keeper of the National Register as provided in Stipulation 7 of the 1986 MOA, which is currently in progress.

All park obligations have been completed for the 2002 MOA. As mentioned in last years report, efforts directed toward fulfilling Stipulation II of the 2002 MOA, which requires a gathering plan for Yosemite Valley, have been redirected. The redirected scope is expanded to be park-wide and include all American Indian tribes that claim association with park lands. The study is now focused on restoration and management of traditional cultural resources and will culminate in a *Traditional Resource Use Management Plan*. The decision for redirection was reached in consultation with the AICMC and the CA SHPO. The AICMC, however, decided not to sign the amendment to the MOA as proposed last year, but to accept the parks' efforts as adequate to fulfill the parks' responsibility pursuant Stipulation II of the 2002 MOA.

### **American Indian Consultation**

Yosemite National Park conducts American Indian consultation in accordance with NHPA Section 106 implementing regulations CFR 36 Part 800, the Native American Graves Protection and Repatriation Act, and the American Indian Freedom of Religion Act. Consultations occur regularly throughout the year, and in July of 2006 the park hosted an All-Tribal consultation attended by representatives from most of the seven tribes claiming association park lands: The AICMC (aka Southern Sierra Miwuk Nation), Tuolumne Band of Me-Wuk, Mono Lake Katzudika Paiute Indian Community, Bridgeport Paiute Indian Colony, Bishop Paiute Tribal Council, Chukchansi Tribal Government. In addition, the park hosted a one-day consultation in July concerning the 1995 Inventory of Native American Human Remains and Associated Funerary Objects in possession or control of Yosemite National Park prepared pursuant Native American Graves Protection and Repatriation Act Inventory. Tribal representatives have been invited to various workshops and field inspections specific projects, such as the Hetch Hetchy Communication Upgrade Project.

### **Report Distribution**

In accordance with Stipulation XVIII of the 1999 PA, copies of this report are being sent concurrently to all signatories and parties invited to concur on the 1999 PA. A copy of the report will be placed in the Yosemite Research Library for public inspection, and on the Yosemite National Park home page at <http://www.nps.gov/yose/>, with notice of its availability at the Library, in accordance Stipulation VI.

## **MANAGEMENT SUMMARY**

**Project Title:** Cultural Resource Management in Support of 2006 Fire Management Activities in Yosemite National Park

**Project Designations:** YOSE 2006 L: Fuels Management  
YOSE 2006 M: Wildland Fire Use  
YOSE 2006 N: Suppression Fire

**Type of Project:** Section 106

**In Support of:** Fire Management

**Project Staff:**  
Supervisory Archeologist, Laura Kirn, Park Archeologist  
Project Archeologist, Jun R Kinoshita, Fire Archeologist  
Field Archeologists, Kristen Shive, Lead Field Archeologist,  
Crystal West & Echo Purtell, Archeological Technicians

**Fieldwork Dates:** February - November 2006

**Survey Locations:** Laurel Lake, Frog Creek, Falls Creek

**New Sites Recorded:** 14

**Site Revisits:** 45

**Area Surveyed:** 281 acres

**Collections:** Catalog #s YOSE 190195, 120181, 120182

**Photo Information:** C-06L 1-4, DC-06M 1-111, DC-06N 1-28

## MANAGEMENT SUMMARY

Project Title:	Archeological Inventory of the 2006 Backcountry Trails Project.
Project Designation:	YOSE 2006G
Type of Project:	Archeological reconnaissance
In Support of:	Yosemite Trails Program
Field Crew:	
Project Archeologist	Paul DePascale
Field Archeologist	Dustin Hagen
Archeologists	Jessica Middleton, Cindy Norum, Barbara Buettner
Fieldwork Dates:	June 26, 2006 to September 21, 2006
Project Locations:	Babcock Lake Echo Valley Foerster Creek Matterhorn Canyon Red Peak Pass Snow Creek Sunrise High Sierra Camp Triple Peak Fork Upper Illilouette Creek/ Merced Pass Lakes
Number of Sites Documented/Updated:	Three sites were recorded, one site was updated, and four isolates were documented.
ASMIS Assessments:	Nineteen.
Area Surveyed:	101.7 hectares (251 acres)
Artifacts Collected:	None
Photograph Information:	Photographs are archived in the Yosemite Archeology Office and the Yosemite Museum: Photo Nos. DC-06G-001 through DC-06G-023.
Project Purpose:	To conduct Section 106 review in support of trail maintenance and reconstruction activities to have <i>No Effect</i> to any archeological resources.

## **Management Summary**

**Project Title:** Final Report of the Archeological Survey for the 2006 Wilderness Restoration Program

**Project Designation:** YOSE 2006 I

**Project Type:** Reconnaissance Survey

**In Support of:** Resources Management & Science Division, Wilderness Restoration Program

**Project Implementation:** Branch of Anthropology & Archeology

**Project Archeologist:** David L Curtis

**Field Archeologist:** Stanford University Intern Zach Dembo

**Fieldwork Dates:** July 5 – August 24, 2006

**Survey Locations:** Madera County – Johnson Lake/Royal Arch Lake  
Mariposa County – Panorama Trail, Upper Yosemite Creek  
Tuolumne County – Branigan Lakes, Donohue Pass, Dorothy Lake, Jack Main Canyon, Upper Lyell Canyon, Pate Valley, Tiltill Valley

**Sites recorded:** 15

**Sites rerecorded:** 8

**Sites updated:** 41

**Isolates:** 10

**Area Surveyed:** 185 hectares (458 acres)

**Collections:** 10 (Catalogue Nos.: YOSE 190200-190209)

**Photograph Information:** Digital Photograph Roll: DC-06I(-001-155)  
Scanned Images: SI-06I(-01-10)

**Accession No.:** YOSE-6910

**Catalogue No.:** YOSE 190199

**Recommendations:** Recommendations for the Wilderness Archeology Program include: regular site condition monitoring of selected archeological sites; condition assessment, data recovery, and establishment of protection methods at site CA-TUO-4257; revisit and redocumentation of selected sites; future monitoring of non-native plant removal methods by NPS employees.

## **Management Summary**

**Project Title:** Final Report of the Archeological Survey for the 2006 Wilderness Restoration Program

**Project Designation:** YOSE 2006 I

**Project Type:** Reconnaissance Survey

**In Support of:** Resources Management & Science Division, Wilderness Restoration Program

**Project Implementation:** Branch of Anthropology & Archeology

**Project Archeologist:** David L Curtis

**Field Archeologist:** Stanford University Intern Zach Dembo
